Art Unit: 1711

1. Claims 46-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Within line 1 of claims 46 and 48, "The process" lacks antecedence.

2. Claims 46-50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Firstly, as stated within MPEP 2173.02, the purpose of examining the claims under 35 U.S.C. 112, second paragraph is to insure that the claims meet the threshold requirements of clarity and precision. The examiner has reviewed all pending claims and finds that the claims, as drafted, are unclear and imprecise to the extent that the subject matter of the claims cannot reasonably be determined with the certainty required by the statute. Specifically, the claims refer to an expansive number of variables having such varying, extensive, and ambiguous definitions that the claims are convoluted to the extent that one cannot follow the subject matter of the claims with any degree of certainty or confidence.

Secondly, it is unclear if the language, "having less than two" or "has less than two", encompasses zero. For example, does the language, "having less than two isocyanate groups", encompass compounds lacking any isocyanate groups?

Thirdly, it is unclear if the claimed molecular weights are number average molecular weights.

Art Unit: 1711

Lastly, Markush groups denoted by the language, "at least one selected from the group consisting of", are improper; what is there at least one of?
